

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): An external preparation for skin comprising:

oleaginous substances extracted from sporoderm-broken spores of *Ganoderma Lucidum*, wherein said external preparation is applied to said external skin of a human; and wherein said oleaginous substances are extracted from said sporoderm-broken spores of *Ganoderma Lucidum* by an SCF-CO<sub>2</sub> method.

Claim 2 (original): The external preparation according to claim 1, wherein said sporoderm-broken spores of *Ganoderma Lucidum* are germination activated.

Claim 3 (original): The external preparation according to claim 1, further comprising a carrier.

Claim 4 (original): The external preparation according to claim 1, wherein said oleaginous substances are transparent and odorless.

Claim 5 (original): The external preparation according to claim 1, wherein said transparent and odorless oleaginous substances are extracted from said from sporoderm-broken *Ganoderma* spores by a supercritical fluid-carbon dioxide (SCF-CO<sub>2</sub>) extraction method with a temperature set at about 32°C to 45°C.

Claim 6 (canceled).

Claim 7 (original): The external preparation according to claim 1, wherein said oleaginous substances smoothen said external skin of said human.

Claim 8 (original): The external preparation according to claim 1, wherein said oleaginous substances reduces wrinkles from said external skin of said human.

Claim 9 (original): The external preparation according to claim 1, wherein said oleaginous substances defy aging of said external skin of said human.

Claim 10 (original): The external preparation according to claim 1, wherein said oleaginous substances reduces pigmentation of said external skin of said human.

Claim 11 (original): The external preparation according to claim 1, wherein said oleaginous substances reduces inflammation of said external skin of said human.

Claim 12 (original): The external preparation according to claim 11, wherein said inflammation is caused by skin injury.

Claim 13 (original): The external preparation according to claim 1, wherein said oleaginous substances reduces skin irritation of said human.

Claim 14 (original): The external preparation according to claim 13, wherein said skin irritation is caused by herpes zoster infection.

Claim 15 (original): The external preparation according to claim 13, wherein said skin irritation is caused by psoriasis.

Claim 16 (original): The external preparation according to claim 1, further comprising concurrently taking said oleaginous substances orally.

Claim 17 (original): The external preparation according to claim 2, further comprising concurrently taking said germination-activated sporoderm-broken Ganoderma spores orally.

Claim 18 (original): The external preparation according to claim 17, wherein said Ganoderma spores are germinated in a soaking solution containing about 5% of mycelia of Ganoderma, 5% of mycelia of Corydeceps, 5% of malt extract, and 5% coconut juice in water.

Claim 19 (original): The external preparation according to claim 18, wherein said Ganoderma spores and said soaking solution are in a ratio of about 1 : 2 (weight : volume).

Claim 20 (original): The external preparation according to claim 18, wherein said Ganoderma spores are germinated in said soaking solution for about 8 hours at a temperature of about 25°C.

Claim 21 (currently amended): The external preparation according to claim [[21]] 2, wherein said germinated Ganoderma spores are activated in a cultural box at about 80% relative humidity for about 12 hours at about 25°C.

Claim 22 (original): The external preparation according to claim 1, wherein said external preparation is a skin cosmetic.

Claim 23 (original): The external preparation according to claim 1, wherein said external preparation is a topical formulation having dermatological effect on skin.

Claim 24 (withdrawn): A method for smoothening skin comprising:  
applying said oleaginous substances according to claim 1 to said skin in need of smoothening in said human.

Claim 25 (withdrawn): A method for reducing wrinkles on skin comprising:  
applying said oleaginous substances according to claim 1 to said skin in need of reducing wrinkles in said human.

Claim 26 (withdrawn): A method for defying aging on skin comprising:  
applying said oleaginous substances according to claim 1 to said age-defying skin in said human.

Claim 27 (withdrawn): A method for reducing pigmentation on skin comprising:

applying said oleaginous substances according to claim 1 to said skin with pigments in said human.

Claim 28 (withdrawn): A method for lessening skin inflammation comprising:  
applying said oleaginous substances according to claim 1 to said inflammatory skin in said human.

Claim 29 (withdrawn): A method for alleviating skin irritation comprising:  
applying said oleaginous substances according to claim 1 to said irritated skin in said human.

Claim 30 (new). The external preparation for skin according to claim 1, wherein said external preparation smoothens said skin of said human when applies to said external skin of said human.

Claim 31 (new). The external preparation for skin according to claim 1, wherein said external preparation reduces wrinkles in said human when applies to said external skin of said human.

Claim 32 (new). The external preparation for skin according to claim 1, wherein said external preparation defies aging of said skin when applies to said external skin of said human.

Claim 33 (new). The external preparation for skin according to claim 1, wherein said external preparation reduces skin pigmentation when applies to said external skin of said human.

Claim 34 (new). The external preparation for skin according to claim 1, wherein said external preparation lessens skin inflammation when applies to said external skin of said human.

Claim 35 (new). The external preparation for skin according to claim 1, wherein said external preparation alleviates skin irritation when applies to said external skin of said human.
